So Many and So Much to So Few

As we read day by day the now almost routine accounts of massed flights of fighting planes to Japan, where the damage they are doing is expected to shatter Japanese ability to resist invasion and thereby to save American lives, it should be remembered always that American airmen are involved. Many of them are being lost.

They are performing with incredible skill operations so difficult that a few years ago no one dreamed of their execution. Their exceptional ability to think up new tactics and to master their complicated trade of military aviation in a relatively short time has been one of the nation's best weapons.

Perhaps it is time to pay them the tribute Winston Churchill paid to their British counterparts—that never have so many owed so much to so few.

A Statistic To Chew On

It can't be served with pan gravy or meat sauce, but it can be chewed on—the statistic from the Department of Agriculture that the civilian meat supply for 1945 will be only 58,000,000 pounds under the average consumption for the 1935-38 period. That is a decrease of about three-tenths of 1 per cent; consumption in the 1935-38 period was 16,303,000,000 pounds and the estimated supply this year is 16,245,000,000 pounds.

Because of the subtraction of members of the armed forces from the civilian population, the total civilian population to be fed from the estimated supply probably is more than four million below the total of the 1935-38 period. In any event, there apparently is more meat theoretically available per capita in 1945 than there was during those average years. The difference, of course, is in distribution.

The Americans who were without meat to eat during the depression were victims of a lack of purchasing power. Stock farmers, packers and distributors were obliged to dispose of an over-abundant supply where purchasing power existed—and the supply was always greater than the demand. In 1945, purchasing power is abundant, but not meat. Under rationing everybody with the wherewithal can buy the same shares of the meat supply if the black market does not corner it first. No honest purchaser can get what he wants, but nearly all purchasers can get something. It's the difference between 100 getting their fill and 500 getting the scraps, and 600 sharing and sharing alike—with the black market and its chiseling patrons first taking out what they want.

Congress Stands At Ease

The 11-week recess of the House of Representatives is a silent tribute to congressional confidence in the Truman administration. If the Senate completes its consideration of the United Nations charter in time to join the lower house in a legislative breathing spell before Oct. 8, the tribute will be complete. Breathing spells have been few and far between since 1933.

For the first time in 12 years, Congress is not operating in an atmosphere of executive hostility. Mr. Truman has shown no disposition so far to high-pressure legislators to accept his program. Most of the proposals he has made will be held over until fall. His attitude has conveyed to Congress and the public that he believes it is his role to govern in conjunction with the legislative branch, not as its critic, certainly not as its master. The issue of executive versus legislative dominance has been resolved temporarily by the conclusion that they should work together as partners.

This arrangement probably will not be permanent. It continues to be the function of the political opposition to oppose, contrary to the bitter criticism of all who have been bitten by the totalitarian bug. But even with a return to orthodox methods of opposition and support, there will continue to be in Congress a kind of confidence in Mr. Truman that can come only from certainty that he will do nothing to destroy it; that he cherishes the prestige of Congress; and that he resented the bad blood that existed on so many occasions between Congress and the late President Roosevelt.

Japan's Shortage

Vice Admiral Mischer, taking exception to the opinion that Japan is hoarding planes against the climax of invasion, says he thinks Japan is short of critical aviation supplies, such as gasoline.

It is recalled that this same kind of speculation occurred about Germany when its air force became a diminishing factor in defense. When invasion finally occurred, the German air force could not resist it effectively. When Germany surrendered—and even before—it was learned that it still had more planes than it had been using. But the planes were grounded by shortages in all supply categories, including usable air fields. It was not one shortage, but a combination of many shortages that did the damage. It is to create that condition that United States planes have been destroying Japanese industry and United States and British ships have been blockading the Japanese homeland. Admiral Mischer, who has had a lot to do with it, merely is saying that the results are beginning to be evident.

The Stars Say

For Wednesday, July 25.

WELL-ORGANIZED strategies, with enterprise and practical constructive plans, may turn the tide of difficulties and dangers into highly workable and progressive channels. It may require close analysis, bold strokes, with clever executive ability and a spirit of compromise and poise, lest too strenuous or impetuous moves arouse combat and have the force of throwing a monkey wrench into really worthwhile projects or productive objectives. Superiors, higher-ups in business, finance or public influence, should be placated. There may be several tricky and hidden factors to cope with for best results.

Those whose birthday it is may find themselves with an excellent opportunity for launching desires and propositions of scope and significance, but this must be accomplished by carefully developed and practical plans and techniques, pursued with energy, initiative and well-organized methods, which are likely to run counter to those in influential positions, public and private. These should be tactfully and skillfully engineered into productive places, lest there be opposition and strife. Amiability and poise should win against quarrels, impetuosity and stubbornness. As well, there may be trickery and plots.

A child born on this day will be energetic, have much enterprise and initiative, backed up by solid skill and ingenuity. It may be subject to treacheries as well as open antagonisms.

A cut in rates for long-distance phone calls covering more than 700 miles has been announced. And servicemen should have a first crack at it!

A Cleveland drug store was robbed of 300 boxes of gum. The familiar sign, "Just Out," will really mean something.

The Jap home folks must be amazed over what the Americans are doing with a fleet that's been sunk several times.

What It Takes to Invade Japan

Large scale amphibious invasion calls for literally mountains of material. An invasion of Japan, for instance, with a landing force of only 250,000 men, would take 5000 separate beachings by assorted landing craft carrying 1,557,000 tons of equipment. The chart above shows what would make up this tonnage, as detailed by Rear Adm. W. B. Young, Chief of the Navy Bureau of Supplies and Accounts. To maintain this force for 30 days would require the arrival and unloading of 30 to 35 Liberty ships and 15 tankers, carrying 32,000 additional tons of equipment.

GUARDING YOUR HEALTH

Outwitting Cancer

BY HERMAN N. BUNDESEN, M.D.

IN recent months a great deal of attention has been paid to the subject of cancer. The more people become aware of the symptoms of cancer and its danger signs, the more often will early diagnosis of cancer be made, and proper treatment started early enough to produce a cure.

This does not mean that persons should live in fear of cancer. It is true that it is a dread disease, but by no means a hopeless one. Medical science is making rapid strides forward in developing methods for preventing and curing it.

The danger signals include the following: First, any sore that does not heal, particularly a sore about the tongue, mouth or lips. Second, a painless lump or thickening, especially in the breast, lip or tongue. Third, changes in the color or size of a wart, mole or birthmark on the skin.

Irregular Bleeding

Irregular bleeding or discharge from the nipple or any natural body opening is also a danger sign. People who suffer from persistent indigestion may be developing cancer of the stomach or bowel. Persistent hoarseness or cough which does not clear up may indicate a beginning of cancer of the larynx or voice box or of the lung. A person whose bowel action has been normal and who suddenly becomes constipated is in need of an examination just to be sure that cancer of the bowel is not developing. When any of these symptoms occur, of course, an immediate examination by a doctor is required.

In making a diagnosis of cancer affecting the internal organs, X-rays are frequently helpful. In cancer affecting the skin, tongue, and lips, a definite diagnosis often can be made merely by examination. If this does not result in a diagnosis, a small bit of tissue may be removed and examined under the microscope. Such a study permits an absolute diagnosis in every case.

An examination of the rectum and of the prostate in the male should be part of the study. Such a rectal examination often makes it possible to determine the presence of a cancer of the lower part of the bowel or of the prostate gland.

Such a rectal examination is especially important in persons who have had hemorrhoids over a long

period of time. In some persons, bleeding from the bowel is ascribed to hemorrhoids when beginning cancer may be present.

After the middle-age period, all persons should have a complete examination made by a doctor at least once and better twice a year since examinations thoroughly carried out make it possible to discover beginning cancer early enough to permit a cure.

Price Violations Found In Sales of Used Items

Several sellers of new ice boxes, used vacuum cleaners, and used gas ranges were found in violation of the price regulations during a survey conducted during the past two weeks by price panel volunteer assistants of the Salem rationing board, Chairman A. P. Morris reported today.

The check-up on new ice boxes was conducted by the local board because of the greatly increased seasonal demand. Used vacuum cleaners and gas cooking stoves, like new ice boxes, are in short supply but great demand.

The price panel held compliance conferences with the sellers found in violation.

Consumers were reminded by Morris, that they can find out the ceiling price on any of these items by telephoning the price clerk of the local board.

Price panel assistants of the Salem board are visiting all retail laundry, dry cleaning and pressing establishments in this area during the last two weeks of July to check on compliance with posting, record keeping and price provisions. Morris announced.

A similar compliance survey of these establishments was made in March and the new check-up will determine how many retailers are still in violation.

Ohio's "Air-Trail Inns" May Replace Roadside Taverns In Near Future

Plane Owners Drop In For Lunch Far Away From City's Clamor

CLEVELAND — You might as well know now that your pre-war custom of driving to a roadside inn for dinner is definitely out-dated.

After the war, thousands of air-minded Americans will fly to "air-trail inns" especially designed for their convenience. Here is a preview of the new type of country inn, where you can get well-cooked meals away from the clangs, rattles and beeps of city traffic.

One of these inns already is in operation, serving private flyers who put their planes down upon a new landing strip that Park and Iva Ernsberger built upon their 120-acre farm, five miles south of Norwalk.

"Let's go to a quiet, cool place for lunch," C. W. Grove, president of a Cleveland savings and loan association, suggested when I met him on the street.

"There isn't any such place," I countered.

I know better, now.

We left Cleveland airport in Grove's dual-control Rearwin "Cloudster" at 11:50 a. m. and we rolled smoothly down the north strip

birthday. Gifts were presented the honoree. Guests were Mr. and Mrs. H. E. Oesch, Eugene Oesch and Misses Gladys, Rachel and Lucille Oesch.

For hungry skyfarers who drop down from the heavens to dine at "air-trail inns," parking areas like this one at Ernsberger's are provided.

of the Ernsbergers' T-shaped landing field at 12:15 p. m.

The ride was cool and refreshing. The Ernsbergers' place was cool and quiet. We ate a home-cooked lunch on the farmhouse's wide, screened porch and talked flying to Mr. Ernsberger, a licensed pilot. Other patrons taxied up to the house as we ate.

"We just opened June 15," Ernsberger said, "and we served 115 meals the first two weeks. A week ago last Sunday we had 11

planes in here at one time.

"They fly in from Cleveland, Toledo, Columbus and Sandusky. I expect they will come from other places after we have had a chance to advertise a little."

Grove and I lolled on the porch for a while after lunch (we were lucky enough to get steak), then went back to his plane.

Unfortunately, we were back in town in time to do a full afternoon's work midst the clangs, rattles and beeps of the city.

Tells Japs to Quit

OFFICIAL spokesman for the U. S. to Nippon, Japanese-speaking Capt. E. M. Zacharias, U. S. Navy, made a direct broadcast to Jap officials warning them that only unconditional surrender before troop deployment is completed can prevent destruction.

Rainbow In Moonlight

EMBLEM, Wyo.—The song "I'm Beginning to See the Light" took on a new meaning for Adam Preis, young Emblem farmer, recently. Preis saw a rainbow at night—10:30 p. m. to be exact. The observer was attending a War Bond rally when he glanced out of a window just after a shower and saw the rainbow. Other persons at the rally verified the story and explained that there was an abundance of bright moonlight at the time the rainbow was seen.

Your GI Rights

Questions and Answers On Problems of the Servicemen

WASHINGTON—Here are some questions from veterans and GIs:

Q. My son got out of the Army in 1942 because of a bad arm as the result of his service. It has become a chronic trouble and he is in a Veterans Administration hospital receiving what they call "domiciliary" care. He has asked me to find out if it is possible for him to also get money from the Government to attend a business college which is in the same town as the hospital. He thinks he can learn enough there to become financially independent. Is this possible?

A. Yes. It has recently been ruled that veterans receiving so-called domiciliary care in VA hospitals can also take advantage of the education provisions of the GI Bill of Rights at the same time.

Q. I ran a little corner stand before I went into the Army. Most of the profit was from candy which I manufactured right there. I plan to start making the candy again but fear I won't be able to get enough sugar from OPA. Just how much will they give me?

A. Veterans of this war entering the candy-making business are now being given a "base" of 16,000 pounds. What you actually receive will be a percentage of your "base" figure. For industrial users who were in business before sugar rationing was begun, the "base" represents their pre-rationing of 1941. Use, if you used more than 16,000 pounds in 1941 you are entitled to proportionately more now.

Q. I have just returned from Europe and have a 45-day furlough coming up. How much gasoline can I get from OPA for use during that time?

A. According to present allotments you can get a gallon for every day of furlough. For vets returning from Europe the 30-gallon limit has been removed.

It's in the Works

Every day American industry produces new reasons for buying War Bonds and beating the Japs as soon as possible so we can enjoy some of those postwar wonders that will make living more gracious. One of the latest is the new-type home television set, with extra-large screen, pictured above as it was exhibited by General Electric in New York recently. Sorry—for postwar only.

HELP BRIDGE THE GAP - HELP BEAT THE JAP
KEEP THAT WAR JOB! KEEP BUYING BONDS! DO ALL YOU CAN TO HELP!
THE STANDARD OIL CO. (OHIO) SOHIO

Many thousands of Chinese coolies labored day and night for months to build the China airfields for America's bombing planes.

Men Without Oil

One good American bulldozer could do this job.

We take petroleum's machine-power pretty much for granted today. But 75 years ago when The Standard Oil Company started in business it was a hard, tiring job to build anything, or go anywhere.

Here in America we've put oil to work for us. And in our 75 years it has been our privilege to discover and produce fuel and lubricants that have brought easier work, faster transportation, new jobs, better living, more hours for recreation.

Standard Oil men lubricated the first airplane . . . kept the original internal combustion engine from being shipped back to England as a failure for lack of proper lubrication. Earlier, Standard engineers had produced lubricants which allowed the railroads to speed up trains.

Thus, in the lifetime of one company have come the blessings of a great industrial age—and we have been a part of these things almost from their beginnings.

Tinian Largest B-29 Base

TINIAN, July 24.—This Marianas island has been built into the largest of all B-29 bases since American Marines and soldiers swarmed ashore a year ago today to take it from the Japanese in nine days of stiff fighting.

The 32-square-mile island has two fields from which the Superforts strike at Japan, both developed from former Nipponese fighter strips; a harbor capable of accommodating large ships; 38 miles of asphalt highway; hospitals with a total of about 1,200 beds and countless shops, warehouses and other buildings.

GROUCHO'S TIED—BUT NOT GAGGED

IF YOU FAIL TO RECOGNIZE him without his comedy moustache, nevertheless this is Groucho Marx in a very serious scene. The 54-year-old screen, stage and radio punster de-luxe is shown just after his marriage in Hollywood to attractive Catherine Gorey, 24, film actress. Both have been previously married. Household Hints

A brief soaking period for clothes is more desirable than the overnight soaking period.

Use the sponge method to wash handbags made of plastics or washable coated fabrics.

A 4-ounce serving of baked mackerel contains enough thiamine, niacin and riboflavin to contribute to daily vitamin needs.

To grease waffle irons use an unsalted fat—lard or salad oil—applied on a soft brush or piece of cloth tightly tied to a fork.

In canning fruit do not use molasses or brown sugar as a substitute for white. The flavor overpowers the fruit, gives it a dark, unattractive color, and may cause spoilage.

After baking waffles leave grids open until they have cooled to help prevent discoloration of grids.

LEAVES FROM A WAR CORRESPONDENT'S NOTEBOOK

by Hal Boyle

By GEORGE TUCKER (Substituting For Hal Boyle)

WIESBADEN, Germany—Officers in the fiscal section of the U. S. Army wear diamond-shaped insignia of such obscure origin that apparently no one knows what it means.

Infantrymen wear the familiar crossed rifles, military police crossed pistols—insignia whose meaning and origin are perfectly clear—but I have asked scores of officers over the European theater about the fiscal diamond and none has been able to provide the answer.

Capt. Ernest E. Brown of Oklahoma City, Okla., said he believed the diamond was chosen because the diamond represented permanent value.

"I used to wonder about it in Washington and I asked several

people in the Treasury what it meant but none of them knew," Brown said.

Brown had been to Paris from his headquarters near Heidelberg, Germany, and was pushing straight through on the return trip.

"It was a pretty hard trip," he said. "I just took two tons of money to Paris. All kinds of money—South African, Palestinian, Egyptian, Italian. The last time I took eight tons. I had to overload a five-ton truck to do it."

The army handles money like that, in sales of paper currency.

Sometimes money is lost, such as the millions destroyed during Field Marshal Von Rundstedt's Ardennes offensive last December. That money had to be destroyed to prevent it from falling into German hands.

Millions from the sale of money orders, stamps and post exchange supplies must be trundled trucks whizz by soldiers on country roads and the soldiers never dream that behind the canvas is enough money to ransom a king.

Several days later I was in Frankfurt, examining the billions of dollars looted by the Nazis and now assembled in a bank for inventory by British and American treasury experts.

I asked Lt. Col. H. D. Cragon of Nashville, Tenn., if he knew the answer to the origin of the diamond shaped insignia. Cragon is chief of the currency branch of the U. S. group control council.

He smiled, shook his head and said:

"I've often wondered, but nobody ever told me."

Antidote

That non-fraternization edict issued to Yanks occupying Germany wouldn't seem so drastic if Sgt. Harold Burson had his wish. He recently wrote Columbia Studios for a pinup picture of Adele Jergens, above, stating that she is the girl the Yanks would most like to occupy Germany with. She's shown dressed for her part in "One Hundred and One Nights."

Herrold Spaces Ten Singles In Blanking Demings, 3 To 0

THREE-RUN FIFTH RUINS BRUDERLY'S BID FOR VICTORY

Chinas Come from Behind To Defeat Eagles In Other "A" Contest

Lefty Don Herrold scattered nine hits masterfully while his mates combined two hits and a fielder's choice for three runs in the fifth frame as a spirited Leontonia club handed Demings a 3-0 pasting in one of two games played at Centennial park last evening.

In the other contest, the Salem China pushed the Eagles deeper into the league basement with a 4-3 trimming.

Herrold and Kenny Bruderly of Demings tied up in a hot pitching duel for four innings as neither team was able to score. A potential Demings tally had been wiped out at the plate in the first frame while Leontonia had not threatened due to a serious shortage of base-hits. Not a man reached the initial sack on a base hit for Leontonia in the first four innings.

In the fifth, Clunen led off for the Boosters with a single. When Herrold was safe on a fielder's choice, Leontonia began to rise. A passed ball advanced both runners and set the stage for Duco's ringing double to left field which scored the first two runs of the game. Duco personally accounted for the third run when he stole third and reached the plate on Beltempo's boulder to third.

Except for this momentary lapse in the fifth, Bruderly turned in a neat performance, allowing only two singles while striking out six and walking four. Herrold allowed nine hits, all singles, but was never in serious trouble except in the first. Headland, Pete Sanders and Kenny Bruderly each collected two hits for the losers.

Potters Rally To Win

The Potters outfit trailed the Eagles for six innings before pulling the decision out of the fire. The China opened the scoring with a single tally in the third when Russ "Batty" Morrison reached first on an error, advanced to second on Bruce Cope's single and tallied on a hit by May.

The Eagles came back with three runs in their half of the same inning as Ingledue was safe on an error, Carl Smith then tripled sending Ingledue around the sacks to knot up the ball game. Guiler was sent to first on interference by the catcher and Jack Atkinson scored both runners with a single to right giving the Birds a lead which lasted until the seventh.

Rees Hold Third

Delfavero opened the seventh with a long home to left field tying the game once more. After Cope was retired, May walked and Kopf singled him to second. Both men advanced a base on Davis' out and May then stole home to give the China team its second win of the night.

Leontonia's win over Demings gave the Recreation undisputed hold on third place and brought them up to the 500 mark in the league standings. Fourth place in the standings is now shared by the Salem News, Demings and Leontonia.

Tonight's games will feature the long waited battle between Buck Ritchie's league leading Sinclair Oilers and the Recreation. Much of the Oilers' power dwindled when Rob Scullion, a seasoned second sacker, reported back to the army and Catcher Gale Stewart suffered an elbow injury in an extra-curricular game Sunday. It remains to be seen whether Ritchie can successfully plug the gaps and keep his team undefeated this round. The second game on the slate pits the Salem News against Mullins.

TOPPERS WIN TIGHT FRAY WITH ROBERTS

The Toppers clipped Roberts, 4-1, behind the four hit pitching of Scullion and the Youth Center walked to a 13-5 win over the Men About Town in Class B games on the lower Centennial park diamond last night.

Viola and Joseph paced the Toppers to their win with two hits each while Payer collected a pair for the losers. Snyder had a perfect day at the bat for the Youth Center, slugging out three hits in as many appearances at the plate. Bowman was the winning pitcher and Culbertson the loser.

DR. STANTON K. CRAWFORD
Private funeral service for Dr. Stanton K. Crawford of Cleveland, who died Sunday, will be held at 8 tonight at the Branch-Kaufman funeral home in Lakewood.

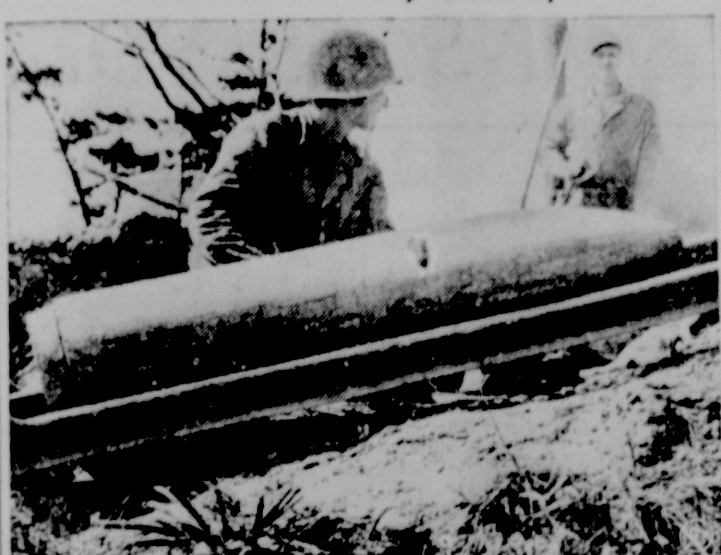

Surviving are two sisters, Mrs. Tamar E. Wells of Lakewood, formerly of Salem, and Mrs. Martha Victoria Emmens of Culver City, Calif., and one brother, Orrin D. Crawford of Lakewood.

500 ROUNDED UP
IN BERLIN DRIVE

BERLIN, July 24.—Allied authorities said tonight that 500 Berlin residents and more than 20 American and British soldiers had been arrested in a two-day drive against the black market, including a raid on street traders near the wrecked Reichstag.

Col. N. C. Atwood, acting U. S. provost marshal, said the inter-Allied drive against the black market in collaboration with Berlin police would be "increased in intensity."

Meet the 'Bubbly-Wubbly'

Here's one of the first photos released showing a Japanese rocket bomb. Called the "bubbly-wubbly" on account of the noise it makes, bombs of this type were used against Marines on Okinawa, where one of the leghorn necks is shown looking it over.

Steam is conducted through large pipes from volcanoes to industrial plants in nearby cities in Italy.

Average Public Is Lost
Without Daily Newspaper

NEW YORK, July 24.—A large majority of the public is convinced that there is "no adequate substitute" for newspapers, fact finders associates have reported after two cross section surveys taken during the recent 17-day strike of news-
paper deliverymen.

The surveys, made from July 3-5 and July 11-12, were undertaken at the request of the Bureau of Advertising of the American Newspaper Publishers association. The strike began June 30 and ended July 17.

Principal question asked was: "You probably are getting most of your news from the radio. Is radio completely filling your need for news?"

In the first survey 76.6 per cent said no and 23.4 said yes. In the second—after readers had been deprived of their newspapers for another week—the percentages were: 89.2, no; 10.8, yes.

Lausche Names Members
To Strip Mine Commission

COLUMBUS, July 24.—Gov. Frank J. Lausche today announced his appointees to a nine-member commission created by the general assembly to investigate coal strip mining in Ohio and recommend controls. Three senate members already have been named and three house members are to be designated.

Gubernatorial appointees are: Louis Bromfield of near Mansfield, member of the state conservation commission and a leader of friends of the soil movement; William A. Stinchcomb of Cleveland, executive director of the Cleveland Metropolitan park board and a professional engineer; and L. M. Ronsheim, editor of the Cadiz Republican and described by Lausche as having "seen the invasion and destruction of strip mining."

Bromfield and Stinchcomb are Democrats and Ronsheim a Republican. The commission is bipartisan.

34 Industrial Concerns
Named in OPA-Filed Suits

CLEVELAND, July 24.—Charged with failure to file their base period prices by the June 15 deadline, 34 northeastern Ohio industrial concerns were defendants in injunction suits filed yesterday in federal court by the Cleveland District Office of Price Administration.

All the companies are engaged in "industrial services," which consist of such processes as enameling, annealing, drilling, shaping, welding and stamping of materials provided by other industrial concerns.

Companies named in the suits included: Union Metal Co., Spun Steel Corp. and Canton and Cable, all of Canton.

Mansfield Brass and Aluminum Corp., Earl Irvin machine shop and Phoenix Electric Co., all of Mansfield.

Melvin Harris, Mel Harris welding shop of East Liverpool.

State Division of Mines
Chieftain to Quit Sept. 1

COLUMBUS, July 24.—The resignation of Marcus A. Kerr as chief of the State Division of Mines next Sept. 1 was announced today by Gov. Frank J. Lausche without comment.

Lausche said he had not talked with Kerr until yesterday when the division chief answered a request to appear at his office. He said Kerr came in with his resignation to the \$3,000-a-year post to which he was appointed in 1941.

The governor previously said Belaire hotel bills submitted by Kerr in connection with his work at the time of the Powhattan mine fire were under investigation. Kerr is a resident of Logan.

Drowns As Canoe Upsets

AKRON, July 24.—An unidentified man was drowned and two women and another man were rescued last night when a canoe upset in nearby Turkeyfoot lake, police reported. The rescued man, Kenneth Chappel, 34, of Canton, O., was being held at City hospital for observation and firemen were dragging the lake to recover the body of the missing person, police said.

Assassin Is Sentenced

CAIRO, July 24.—Mahmud Isawy, 26-year-old Egyptian lawyer who pleaded guilty to shooting and killing Premier Ahmed Pasha last February after the country declared war on the Axis, was sentenced to death today by a military court.

In accurate firing of long-range-guns, consideration must be made for the turning of the earth on its axis.

Buys Chicago Mart

JOSEPH P. KENNEDY, former U. S. ambassador to Great Britain, takes over Marshall Field's 23-story Merchandise Mart in Chicago. It was reported that Kennedy paid \$19,000,000 in cash for the huge building with 63 acres of floor space. (International)

YANKS-AUSSIES IN DRAMATIC BORNEO LANDING

ONE OF THE MOST SPECTACULAR and dramatic moments during the invasion of Balikpapan, rich oil center, is captured in this first original photo to be released of the Borneo landings. U. S. Coastguardsmen manned the crafts that took Australian troops to their invasion sites. In the background heavy black smoke rolls from burning oil wells over rows of shell-blasted palm trees. Coast Guard photo. (International Soundphoto)

With District Men
In The Service

SOMEWHERE IN THE WESTERN PACIFIC—Ten thousand miles from home and in the same civilian camp for three weeks, Seaman Second Class Cecil L. Felton, 27, and Pfc. James H. Blackburn, both of Salem, Ohio, finally saw and recognized each other atchow one night recently.

Blackburn, a combat infantryman, whose wife, Ruth, lives at 435 N. Ellsworth ave., is temporarily attached to a Military Government team at this Pacific island outpost. He stands a watch every night and sleeps during the day.

Felton, whose wife, Ruby, and two children, Darlene, 9, and Kenneth, 7, live at 25 Rose ave., is chief assistant to the sanitary engineer and keeps busy in the native villages during the day and sleeps at night. It was only because Blackburn missed his usual early serving that the two men met to find that they both belong to the Eagles lodge, had attended the same parties, played cards together and had danced with each other's wives.

Blackburn, who worked for the National Sanitary Co. and has lived in Salem since 1934, was inducted in August, 1943, and has spent 18 months overseas.

Felton, who graduated with the Greenford High school class of 1934 and worked for S. J. Bennett, the florist, was inducted in March, 1944, and left the country for overseas service three months ago.

Pvt. Joseph P. Sox, of R. D. 4, Salem, has arrived at Camp Blanding, Fla., after serving 42 months overseas with the field artillery. He last saw service in Germany.

Mr. and Mrs. Steve Kupka have received this new address for their son, Joseph Kupka, Co. 504, G.S.L. USNITC, Sampson, N. Y.

Another son, Ben, is serving in the Po valley region in Italy. His address is: T-5 Ben S. Kupka, 35842881 Hq. Bn. 178 P. A. Gp. APO 464, care postmaster, New York, N. Y.

Pfc. Julius Sandusky, 28, husband of Mrs. Pauline Ann Sandusky, of 110 W. Second st. is being processed through the redistribution station in Miami Beach, Fla.

Pfc. Sandusky served seven months as a rifleman in the European theater of operations. While there he was awarded the Combat Infantry badge and the European campaign ribbon with two battle stars.

Master Sgt. Arlin Hendricks has been given an honorable discharge from the army at Camp Atterbury, Ind., and is at the home of his parents, Mr. and Mrs. Earl Hendricks of Greenford.

Enlisting Oct. 12, 1940, he was the first to enter the service from Greenford. Overseas three years he was based in Iceland and Europe. He has been awarded the Good Conduct ribbon, Bronze Star, American Defense ribbon and five battle stars.

Corp. Clyde C. Stoffer, son of Mr. and Mrs. C. H. Stoffer, 279 Roosevelt ave., has arrived at the Presque Isle army air field, after serving 33 months in the European theater. He came to this country aboard an Air Transport command plane of the North Atlantic division's Snowball fleet.

He has been awarded the Good Conduct medal, pre-Pearl Harbor ribbon, ETO medal with eight battle stars, and the Combat Infantryman's badge.

Mrs. Doriene Perkins, Cleveland st., has received word that her husband, Corp. Jack Perkins, arrived Saturday night at a general hospital in Garden City, N. Y. He will be transferred to another hospital, where he will be treated for a back injury he received while training for the paratroops at Fort Benning, Ga. He had been in Germany since April.

Mr. and Mrs. F. L. Thomas of the Benton rd. have received this new address for their son, Raymond, who is now in the Seventh army of occupation in Europe. Pfc. Raymond E. Thomas 35336303, 2790th Eng. Forestry Co. APO 758, care postmaster, New York, N. Y.

Mrs. Richard Klyne, 203 Grant st., Minerva, has received word that her husband, who is stationed some-

and the Middle East. The same thing can be said of most of the Latin American countries which control news.

It's of special importance that there be a free exchange of news as quickly as possible between Europe and the rest of the world. In the matter of Germany, President Truman recognized this principle as far back as May 15 when he declared that he favored a free flow of information in the Reich, consistent with military security. This reversed an announcement by OGC Director Elmer Davis who had stated that information reaching the German public would be strictly controlled.

News is moving out of—and into—Western Europe freely again, as the whole. However, Central and Southeastern Europe—where the hot embers of war continue to glow in many places—remain under wraps for the most part. That section of the continent is largely under Russian control, and it will be by agreement with Moscow that censorship will be relaxed. The presumably is under discussion at the Potsdam conference. There is not only the question of censorship but in the case of some countries, correspondents are forbidden admission.

We can't place all the blame for censorship on the war. There always were many countries which maintained stiff censorship—among them being Germany, Italy, Poland, and all the Balkans. I speak from first-hand knowledge, for I've worked in all those states.

That sort of thing imperils world peace. Now is a good time to stop taking the lid off the news. The parliaments of many countries today are being asked to deal with international problems. How can the aid intelligently if they are deprived of information about what is going on? The easiest way to get an understanding of European great powers politico-economic problems is to publish all the news about them.

NO NEED TO SHIVER

NEXT WINTER!

Insulation, weatherstripping, storm sash and even a change-over in your heating equipment may all be financed with a loan on The Farmers National plan of payments as small as your convenience requires.

Keep warm and help your country save fuel at the same time. See this local bank . . . first thing in the morning.
